

Please identify where you want the picnic tables. The staff will bring tables and benches to this general area for you to arrange. The ground is uneven and sloped in places, and that may affect your final positioning of the tables. If the Canopy is requested, you must be very specific as to desired location as it is not easily moved. Shown here are Canopy options "A" and "B" within each of the general areas. If more specific locations are required; arrange to meet with the staff on site, days prior to the event, to choose and mark the areas.
